Overview

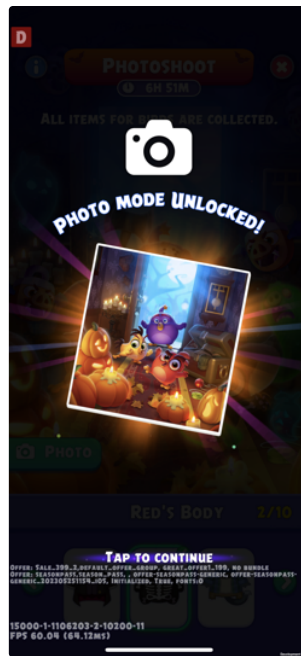

The **Bird Vacation Photoshoot** is a week-long solo event that lets players dress up Red, Chuck, and Bomb for their vacation photos. Players collect special tokens by completing levels and use them to buy outfits and accessories for the birds.

How it Looks - User Interface

The event features a clean, intuitive menu showing:

- Your current token count
- Progress toward unlocking all items
- The vacation scene with all three birds
- Available customization items (with locked items grayed out)

How It Works

Collecting Tokens

- Play levels to earn event tokens
- **Important:** Only first-try wins reward tokens (this encourages careful play)
- Use tokens to unlock customization items

Dressing the Birds

Each bird has three outfit categories:

- **Headgear** (hats, glasses, etc.)
- **Body items** (clothing)
- **Accessories** (props and extras)

Players can mix and match items to create their perfect vacation look, with 9 items available per bird (27 total).

Progression System

The event uses a tiered unlock system:

- Start with basic items for Red
- Unlock new sets as you collect more items
- Items get progressively more expensive to encourage steady progress
- The system guides you to dress all three birds evenly

Final Rewards

Once all items are unlocked, players get access to:

- **Photo filters** for an Instagram-style look
- **Special effects** (like summer sand particles)
- **Photo mode** with two special features:
 - **Save Photo:** Downloads the image to your phone
 - **Share Photo:** Opens sharing options to post on social media

⚠️ Unlocking all customization items **opens a shop** for **endless “bonus” rewards** like for example boosters instead of clothes and accessories.

📘 You can check the **rewards & endless rewards** from [Beacon LiveOps Calendar](#)

Here is the order and prizes that come after the end of the event on "infinite mode"

Why This Event Matters

For Players:

- Express creativity through bird customization
- Work toward a rewarding goal
- Create shareable vacation photos

For the Game:

- Increases engagement with a new progression system
- Encourages strategic level completion
- Creates motivation through loss aversion (first-try bonus)

Event Schedule

The event runs for one week and follows seasonal themes (Summer, Fall, Winter, Spring), with fresh vacation backgrounds and items for each season.

Item Table (example):

Set #	Set Name	Item Name	Items needed to Unlock Set	Art Asset (image)
1	Red's Headgear	Headgear 1	0	
		Headgear 2		
		Headgear 3

		Headgear 2		
		Headgear 3		
4	Bomb's Headgear	Headgear 1	6	
		Headgear 2		
		Headgear 3		
5	Chuck's Body	Body 1	8	
		Body 2		
		Body 3		
6	Bomb's Body	Body 1	10	
		Body 2		
		Body 3		
7	Chuck's accessories	Accessory 1	13	
		Accessory 2		
		Accessory 3		
8	Bomb's accessories	Accessory 1	16	
		Accessory 2		

		Accessory 3		
9	Red's accessories	Accessory 1	20	
		Accessory 2		
		Accessory 3		
10	Photo filters	Photo filter	25	
		Particles		
		Sticker or emoji		

Player Support Notes

If a player has lost some amount of tokens, we can adjust their inventory through the text box called **Progress** on the photo page in the admin tool.

Remember to hit **Save** after adjusting the amount of tokens. If we can get a screenshot of their previous progress, that would be great, but it is not necessary if the player cannot get it we should still provide tokens based on what they mention they lost.

The screenshot shows the 'Photo' tab selected under the 'Players' section. The event details are as follows:

- Event ID: [0d33959a-aa1b-4cf5-9c8a-a16a8372ded3](#)
- Event type: Photoshoot
- Asset Bundle: event-photoshoot-generic
- Start time: Mon, 20 Oct 2025 01:05:00 UTC
- End time: Fri, 24 Oct 2025 01:00:00 UTC
- Progress: 0

At the bottom, there is a red button labeled 'Mark for deletion'.

For compensation in special cases see 📌

Photoshoot event Tokens

What to Compensate if players have **lost the Multiplier** in the Photoshoot event (*whenever they fail a level their multiplier will be reset and there is no way to restore it*)?

- If the player has lost **below the 4x multiplier** > give them **30 minutes of unlimited lives**.

- If the player has lost **more than the 4x multiplier tokens** > let's provide them with **1 hour of unlimited lives**.
